

We, Curran Futures act as intermediary (Broker) between you, the consumer, and the product provider with whom we place your business.

THE BACKGROUND

Pursuant to provision 4.58A of the Central Bank of Ireland's September 2019 Addendum to the Consumer Protection Code, all intermediaries, must make available in their public offices, or on their website if they have one, a summary of the details of all arrangements for any fee, commission, other reward or remuneration provided to the intermediary which it has agreed with its product producers.

WHAT IS COMMISSION?

Commission is the payment which may be earned by us for the work we undertake on behalf of the Insurer and/or Product Producer and by you our client as we offer advice and facilitate transactions on your behalf with the Insurers and Product Producers. Commission is usually paid as a percentage of the premium paid or amount invested.

COMMISSION TYPES

There are different types of commission models:

- **Single commission Payment:** where payment is made to the intermediary shortly after the sale is completed and is based on a percentage of the premium paid/amount invested.

- **Initial Commission Payment:** payment is based on a percentage of the premium paid/amount invested

Trail Commission Payment: payment is based on a percentage of the underlying value of the investment.

Renewal Commission Payment: payment is made at intervals throughout the term of the policy / product, usually a percentage of the premium paid.

- **Indemnity commission:** payment is made before the commission is deemed to be earned i.e paid in advance. Indemnity commission may be subject to a clawback* should a client lapse or cancel the product before the commission is deemed to be earned

***Clawback** is an obligation on the intermediary to repay unearned commission. Commission can be paid directly after a contract is concluded but is not deemed to be 'earned' until after a specified period of time. If the consumer cancels or withdraws from the financial product within the specified time, the intermediary must return commission to the product producer.

HOW THE VARIOUS COMMISSION TYPES APPLY TO THE DIFFERENT PRODUCTS

LIFE ASSURANCE

- For Life Assurance products commission is divided into initial commission and renewal commission (related to premium), fund based or trail relating to accumulated fund.
- Trail commission, bullet commission, fund based or renewal commission are all terms used for ongoing payments. Where an investment fund is being built up through an insurance-based investment product or a pension product, the increments may be based on a percentage of the value of the fund or the annual premium. For a single premium/lump sum product, the increment is generally based on the value of the fund.
- Examples of products include Life Protection, Regular Premium Life Assurance Investments, Single Premium (lump sum) Insurance-based Investments, and Single Premium Pensions.

INVESTMENTS AND PENSION PRODUCTS

- Investment firms, which fall within the scope of the European Communities (Markets in Financial Instruments) Regulations 2007 (the MiFID Regulations), offer both standard commission and commission models involving initial and trail commission. Increments may be based on a percentage of the investment management fees, or on the value of the fund. * [Clawback](#)

FEES

- A fee is a payment for professional services and expertise.
- A fee can be paid by our client directly for the professional services we provide. The amount of any fee will be discussed and agreed, with our client, in advance of all transactions

and/or

- Our Clients have the option to pay for the professional services we provide by way of a combination of commission and fees which we will discuss and agree in advance of all transactions.
